TO WHOM IT MAY CONCERN

We, Soluxtec GmbH herewith confirm that our MC4 Like Connector of last module per string can be allowed to pinch off and replace / crimp by MC4 / MC4-EVO2 connectors from the string to the inverter, and this operation will not violate the warranty item of Soluxtec module which defined in our general business terms as well as warranty conditions

However, Soluxtec shall not be liable for any damage of modules due to the faults of the engineering and / or designing of PC systems

Kind regards
